Mission

*At **Frametech Essex**, our mission is to deliver bespoke timber solutions tailored to the needs of our local clients. We are committed to providing exceptional quality, sustainability, and precision in every project. Through collaboration, innovation, and a focus on building strong client relationships, we aim to support the growth and success of construction projects across Essex and its neighbouring counties.*

Vision

To be the trusted provider of innovative and high-quality timber solutions in Essex and the surrounding areas, delivering exceptional craftsmanship and reliability that sets the benchmark for local construction excellence.

“

***Built on Experience,
Strengthened by Teamwork:
Frametech's Legacy in
Structural Carpentry***

”

Welcome

At **Frametech Essex**, we specialise in delivering high-quality timber solutions tailored to the unique needs of our clients. With a wealth of experience and a dedicated team of professionals, we pride ourselves on providing exceptional service, reliability, and craftsmanship across every project.

Whether you're a main contractor, developer, self-builder, or timber engineering company, we're here to support you at every stage.

Who We Are

Frametech Essex is a trusted and established provider of timber engineering and installation services. Based in Essex, we've built our reputation on delivering precision, innovation, and excellence. From timber frame kits to intricate roof structures, our expertise spans a wide range of projects, ensuring every client receives a solution that's not only functional but also aligned with their vision.

Our **mission** is simple: "To provide bespoke, high-quality timber solutions that **exceed expectations** and stand the test of time. With a **commitment** to **sustainability** and **safety**, we aim to bring value to every project we undertake."

Who We Work With

MAIN CONTRACTORS

We can provide a supply & installation package or labour-only service with fixings and craneage for the following:

- Timber joisting (Posi joists, I joists, and floor decking).
- Timber roofing (cut and pitch, trusses, post and beam, flat roofs, and steel framed roof infills).
- Structural carpentry (joists, decking, timber stud walls, and cladding).
- Timber frame kit installation or in situ stick build solutions

DEVELOPERS / COMMERCIAL

Our expertise includes:

- Design, supply, and installation of timber frame structures for houses, apartments, nursing homes, hotels, and offices.
- Timber joisting and roof structures for traditional builds and concrete frames.

SELF-BUILDERS / RENOVATORS

We offer:

- Custom-designed timber frame kits (supplied and installed).
- Project management services to streamline your build.
- Structural timber solutions for walls, flooring, and roofing (pitched, flat, or curved).
- Bespoke builds such as garden rooms and stable buildings.

TIMBER ENGINEERING COMPANIES

Our specialist services include:

- Erection and installation of open panel, SIPs panel, and closed panel timber frame systems.
- Roof structures (trusses, cut/loose, and flat roofs).
- Craneage and fixings supply.
- Fall arrest systems for site safety.
- STA Accredited Erectors.

Why Choose Us?

1. Expertise Across Sectors

We work with a diverse range of clients, offering tailored solutions to meet their unique needs.

2. Comprehensive Services

From design to supply and installation, we handle every aspect of your project with precision and care.

3. Proven Track Record

We've partnered with industry leaders such as Horizon Construction, Morgan Rae, ROOFF Ltd, and DWB Timber Engineering delivering exceptional results on every project.

4. Commitment to Quality

At **Frametech** Essex, quality isn't just a goal—it's a standard. Our team is dedicated to ensuring every project is completed to the highest level of craftsmanship.

5. Customer-Centric Approach

Your satisfaction is our priority. We work closely with you to understand your vision, ensuring every detail is executed flawlessly.

Testimonials

*"We've partnered with **Frametech** on several projects and have always found Andy and his team to be professional, courteous, and a pleasure to work with.*

If you're looking for a reliable carpentry company that does what they say they'll do, on time and for the agreed price - look no further.

I wouldn't hesitate to recommend Frametech and look forward to working with them on our next project."

Nick Whittle

TARGET TIMBER SYSTEMS

*"We have used **Frametech** for numerous projects in Hertfordshire and Essex, we have always had a good working relationship with Andy and Billy.*

The Professional but friendly approach including the thoughtfulness for the following trades will be the reason we will continue to use Frametech going forward."

Gary Field

*We've worked with **Frametech** on several projects and Andy is always a pleasure to deal with. On a recent job, he overcame challenges on a difficult site with professionalism and efficiency, delivering the project on time and at the price quoted. His communication is excellent, and we're always kept well-informed throughout the process. We highly value **Frametech's** reliability and wouldn't hesitate to recommend them.*

Lewis Wilkinson

*"I have worked with **Frametech** now for over 20 years , they are a valued experienced carpentry contractor, I have trusted their opinion on technical onsite design matters as well as programming projects with a wealth of experience.*

*I would not hesitate whether it is a small timber frame extension to large site of houses to use **Frametech** as they easily adapt to suit the labour needed to the project.*

My relationship with Andy, Billy, Marcus and Nicola is excellent they are professional and helpful in all elements of our working relationship, I hope this continues for many years to come."

Kevin Jackson

*"We have worked with Andy and **Frametech** Essex for over 25 years and through that time have always found them to be an honest and reliable carpentry contractor. Their reliability, workmanship, and use of initiative to overcome issues on site is second to none and we would have no hesitation in recommending them to potential clients."*

James Anderson

"From the initial pre-start meeting through to the end of their works, they fully engaged with us on installation ideas, arrangement of working platforms and alternative working details to benefit the build. They took on the delivery and crane lifts of the products and the very large roof trusses.

The works were completed in the agreed timescales and to the required quality."

Ian Aylen

"At Bea fastenings UK , we specialise in providing high-quality products tailored to meet the unique needs of our clients.

*We have had the pleasure of supplying **Frametech** Essex for over a decade with nails, screws and on site gas / pneumatic tools that support their work.*

*We are proud to be a trusted partner of **Frametech** Essex."*

Ricky Roberts

Annie Pryer
@pryersproperty

*"We couldn't recommend **Frametech** more highly, they converted our bungalow into a house in timber. They craned in the trusses and added two floors.*

We have been extremely happy with their work, their attention to detail and the speed in which they get things done is second to none. Andy has a can do attitude and we thoroughly enjoyed working with him/his team.

We would 100 percent work with them again in the future."

Sheepfield Barn

Brentwood School

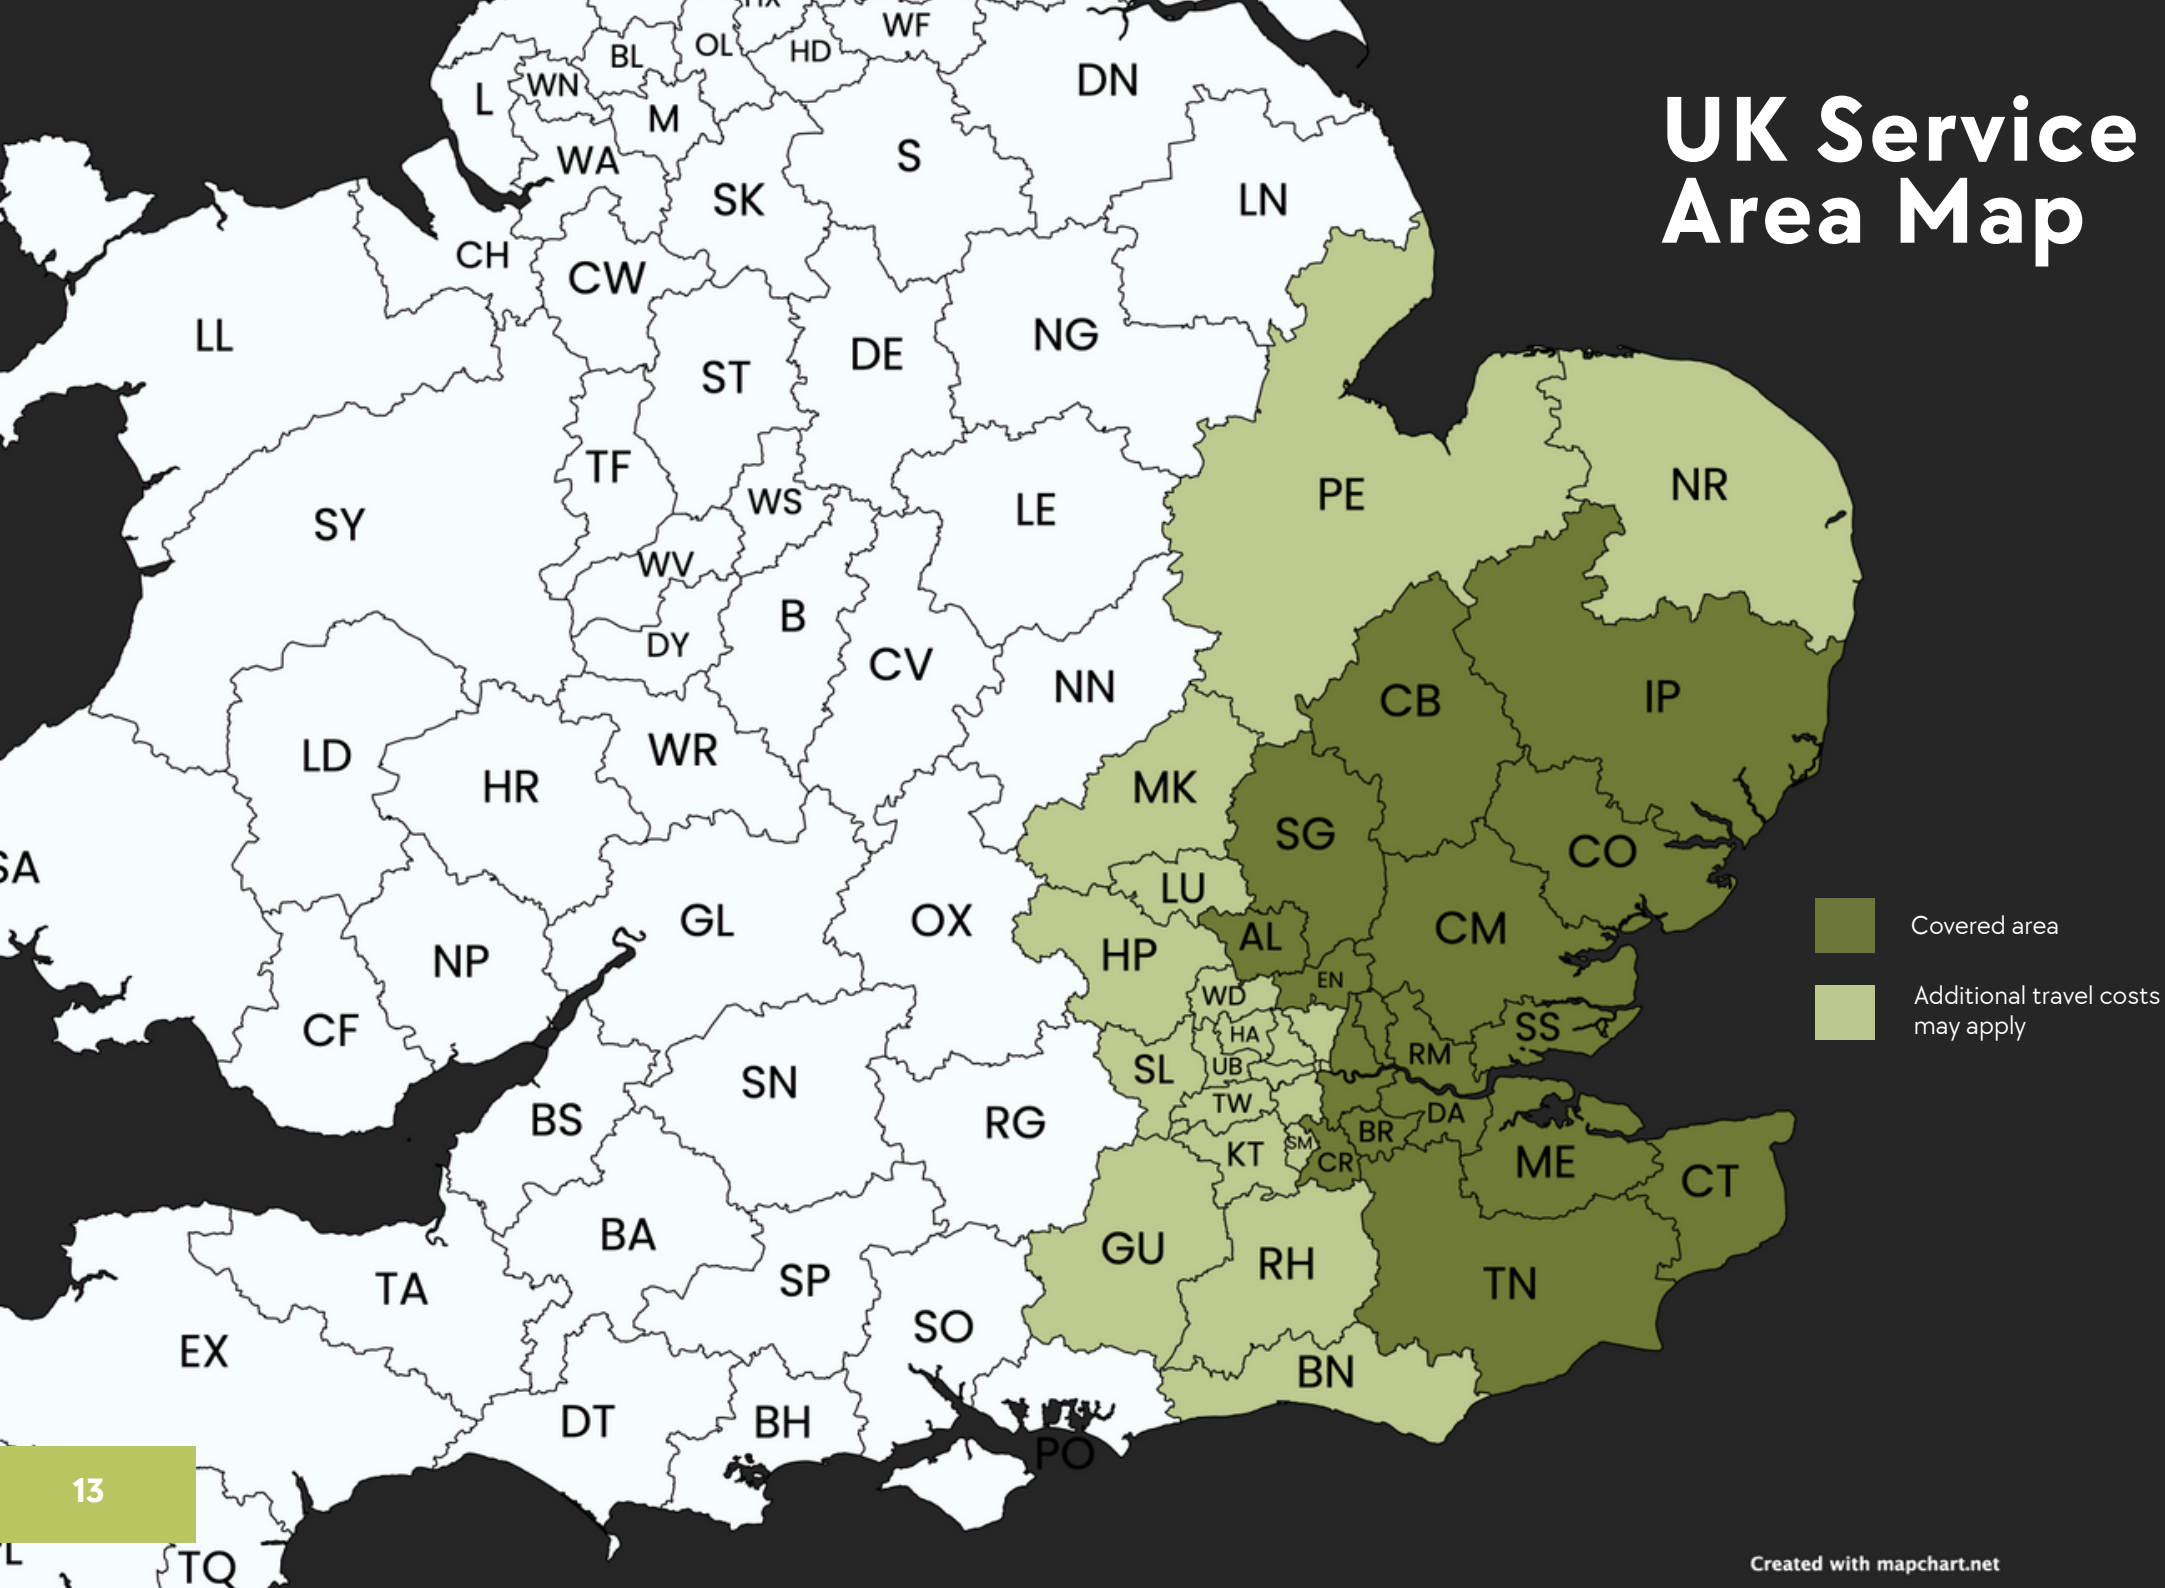

Claire Bullen
Pre-Construction and Business
Development Manager

*"We have an established and long-term relationship with **Frametech**, spanning over approx 25 years, where they have been integral in the delivery of many schemes. Their expertise in handling complex structures is invaluable, making them a key part of the design process. **Frametech** consistently fosters collaborative solutions, bringing a highly skilled, competent team and exceptional craftsmen who excel in addressing technical details. We look forward to continuing working with Frametech on many more projects in the future."*
